Launch Your Life

All the experiences you need to create your edge—intellectual cross-training, mentoring from star faculty, top internships and research, global study, hands-on problem solving, and connecting with a network of alumni passionate about Lafayette—are built into your four years. It’s a powerful platform from which to launch your life.

Lafayette is a national leader in graduation rates, undergraduate research, global experience, and graduate starting and mid-career salaries. We surpass the norms in so many areas because we have remarkable university-size resources devoted entirely to undergraduates.

For the driven student, there could be no better platform than Lafayette to find your way forward into society and the world.

Have Cur Non Impact

The Marquis de Lafayette’s family motto, Car Non (“Why Not?”), has become our rallying cry. It means anything is possible at Lafayette. You want your courses and activities to have real meaning—immediate impact—in your life today. That’s why Lafayette puts you in the driver’s seat.

Cross-Train Your Brain

Today’s world requires intellectual cross-trainers, and cross-training is Lafayette’s specialty. For example, computer science, art, biology, and neuroscience students work together on brain research. Engineering, economics, psychology, and English students help design an arts center in New Orleans. And teams of students tackle problems in the Lehigh Valley.

Make Big Use of Big Resources

One of the nation’s highest endowment-per-student rates means ample resources to bring the best faculty here, to provide the best facilities, and to fuel student research, study abroad, internships, and field work. Lafayette has the big energy of 23 NCAA Division I sports, the big variety of many clubs and organizations, the big heart of community service, and the big thrill of the arts.

Work with Stellar Professor–Mentors

Rooted in the tops of their fields, our professors love teaching and Lafayette’s culture of mentoring. We have one of the highest percentages of any college or university for students working with faculty on research across all four of the College’s academic divisions, the humanities, social sciences, natural sciences, and engineering.
