Lafayette is a place of academic excellence and opportunity, where every student can realize his or her full potential. Four years of The Lafayette Experience means discovery both in and out of the classroom, through student-centered, active learning that combines the highest academic standards with diverse extracurricular programs. Lafayette graduates are prepared for success and leadership by one of the nation’s most academically competitive and respected institutions.

- **Student-focused teaching and mentoring by an exceptionally qualified faculty, committed to each student’s success.**
  Student-focused teaching, mentoring, and academic excellence are the top priorities of the faculty at Lafayette. Undergraduate research, directed by fully involved and supportive faculty, is a priority and a key component in the primary teaching mission. Lafayette’s faculty make deep professional and personal commitments to the success of their students in relationships that can last a lifetime. Faculty members hold the Ph.D. or terminal degree in their field.

- **A challenging, broad-based academic curriculum that offers strong programs in the liberal arts, sciences, and engineering.**
  Lafayette’s approach to teaching and learning goes well beyond traditional classroom methods. Through active- learning experiences in small-group seminars, student-centered team projects, independent study, and student/faculty research, students have the opportunity to cross academic boundaries in the liberal arts, sciences, and engineering. Students study abroad, participate in work/study experiential learning opportunities, and hold externships with alumni and internships in government, industry, and many other fields.
A small college environment with large college resources.
Major financial resources make superb facilities and exceptional academic programs available to all students. Lafayette’s close-knit residential campus, which is consistently referred to as one of the most beautiful in the nation, creates an atmosphere conducive to learning and achieving one’s goals. Also integral to The Lafayette Experience is the strong support the College receives from its global network of loyal alumni.

A friendly residential community offering an exciting social life with a broad spectrum of extracurricular activities.
Whether you are a campus visitor or a member of the Lafayette family, friendliness and civility characterize the campus scene. Lafayette’s diverse student body provides an enriching social and cultural experience. With more than 250 student groups and special activities, students can explore new areas of interest and numerous opportunities for leadership and personal growth, including participation in 23 Division I intercollegiate sports as well as intramurals, a variety of on-campus cultural enrichment programs, a broad range of living groups marked by special interests, and fraternities and sororities.

The Lafayette Experience allows students to take advantage of unique opportunities to prepare for a rewarding future in one of the nation’s most academically challenging environments. It is an experience that starts here and lasts a lifetime.
